

1 In a web browser go to:

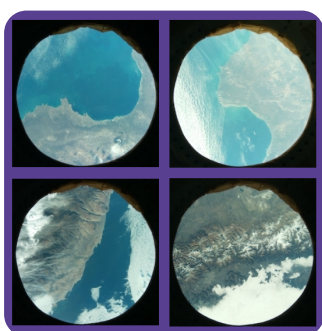

rpf.io/web-space

2 Find `<head>`. Click on the ▼ arrow to hide the `<head>`.

3 Find `<h1>` `</h1>`.

Add a heading inside: `<h1>` Photos from space `</h1>`

Photos from Space

4 Find ``.

Replace `empty.jpg` with any of `bay.jpg`, `clouds.jpg`, `coast.jpg`, `mountains.jpg`.

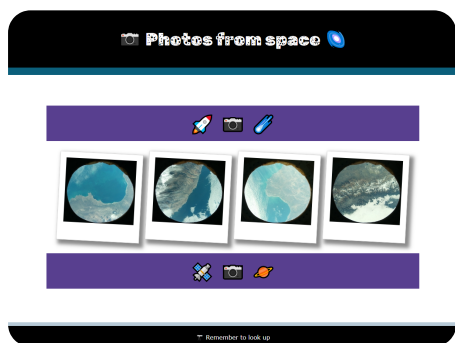

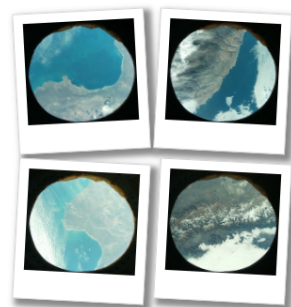

Repeat for the other images.

5 Find and change these lines:

- `<header class="border-bottom secondary">`.
- `<main class="page">`.
- `<section class="wrap xcenter">`.
- `` x 4
- `<footer class="border-top secondary">`.

Hover over a photo and see what happens.

Photos from space

Extra: Add two new sections with space-themed emoji before and after the `</section>` `</section>` with photos in:

`<section class="primary bigfont xcenter">`

`<section>`

Find and copy emoji from rpf.io/emoji
