Style your
Emoji 😊

Discover 🧭
Web: HTML and CSS

1 In a **web browser** go to:

🔒 **rpf.io/web-emoji**

2 Find `<h1> </h1>`.

Add a heading inside: `<h1> My favourite emoji </h1>`

3 Find this line of code: `<p class="hugefont"> </p>`.

Copy your favourite emoji in between the two angle brackets, like the example below:

`<p class="hugefont"> 🥰 </p>`

🔍 Find emoji here: **rpf.io/emoji**

4 Find the following line of code in the `<head>` section:

`<link href="default.css" rel="stylesheet" type="text/css" />`.

Replace `default.css` with any of `smokey.css`, `festival.css`, `water-animals.css`, `sunshine.css`, `companion.css`, `medals.css`, `pastel.css`.

🔄 Try them all until you find your favourite.

Extra: Add some more of your favourites in the footer `<footer> </footer>` with a short piece of text:

```
<footer class="border-top secondary"">
    <p>Other favourites are: 🍦🌴✈️</p>
<footer>
```

🔍 Find emoji here: **rpf.io/emoji**
